

ROADSENSE AI

Predict. Prevent. Protect.

AI-Based Road Risk Assessment & Safe Route
Recommendation System

Team id : H26SCT10

Team Name : Team Origin

College Name : SNS College of Technology

Team Members : Rosvi S , Poovitha V

THE PROBLEM

PROBLEM

- Rising road accidents
- Unsafe road conditions
- No safety-focused navigation
- Delayed hazard awareness

OBJECTIVE

- Predict accident-prone roads
- Detect road hazards using AI
- Recommend safer routes
- Improve road safety

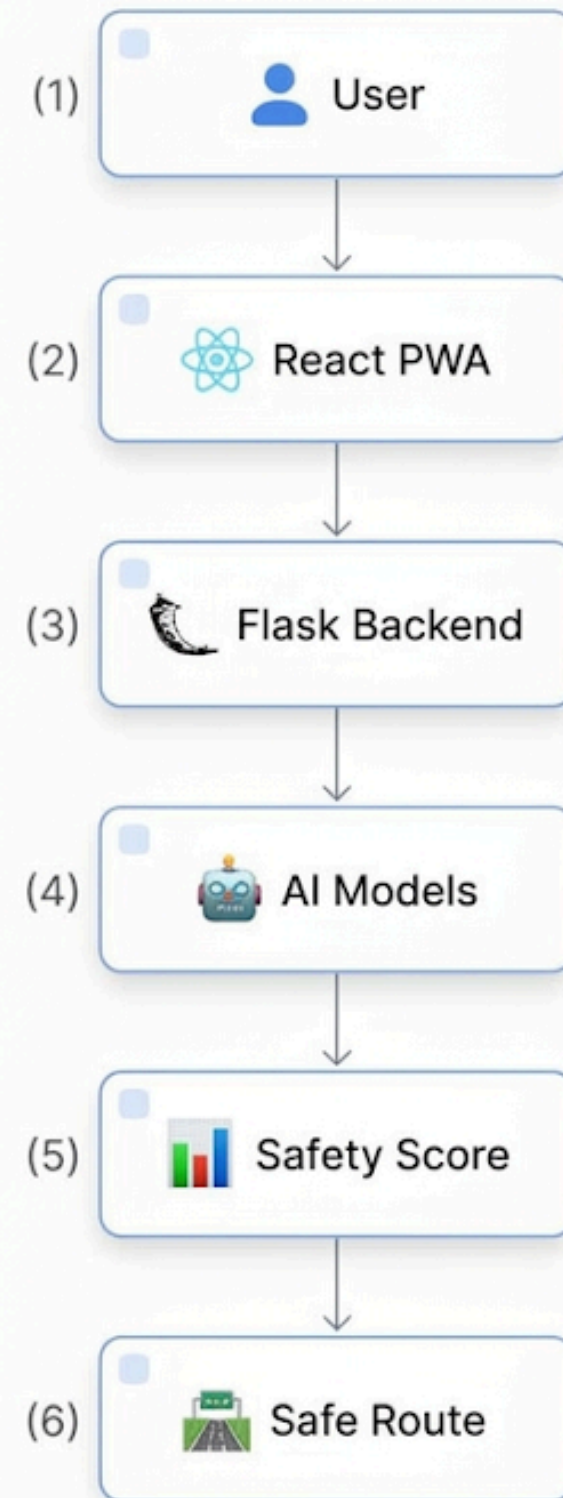

SOLUTION

RoadSenseAI

Features

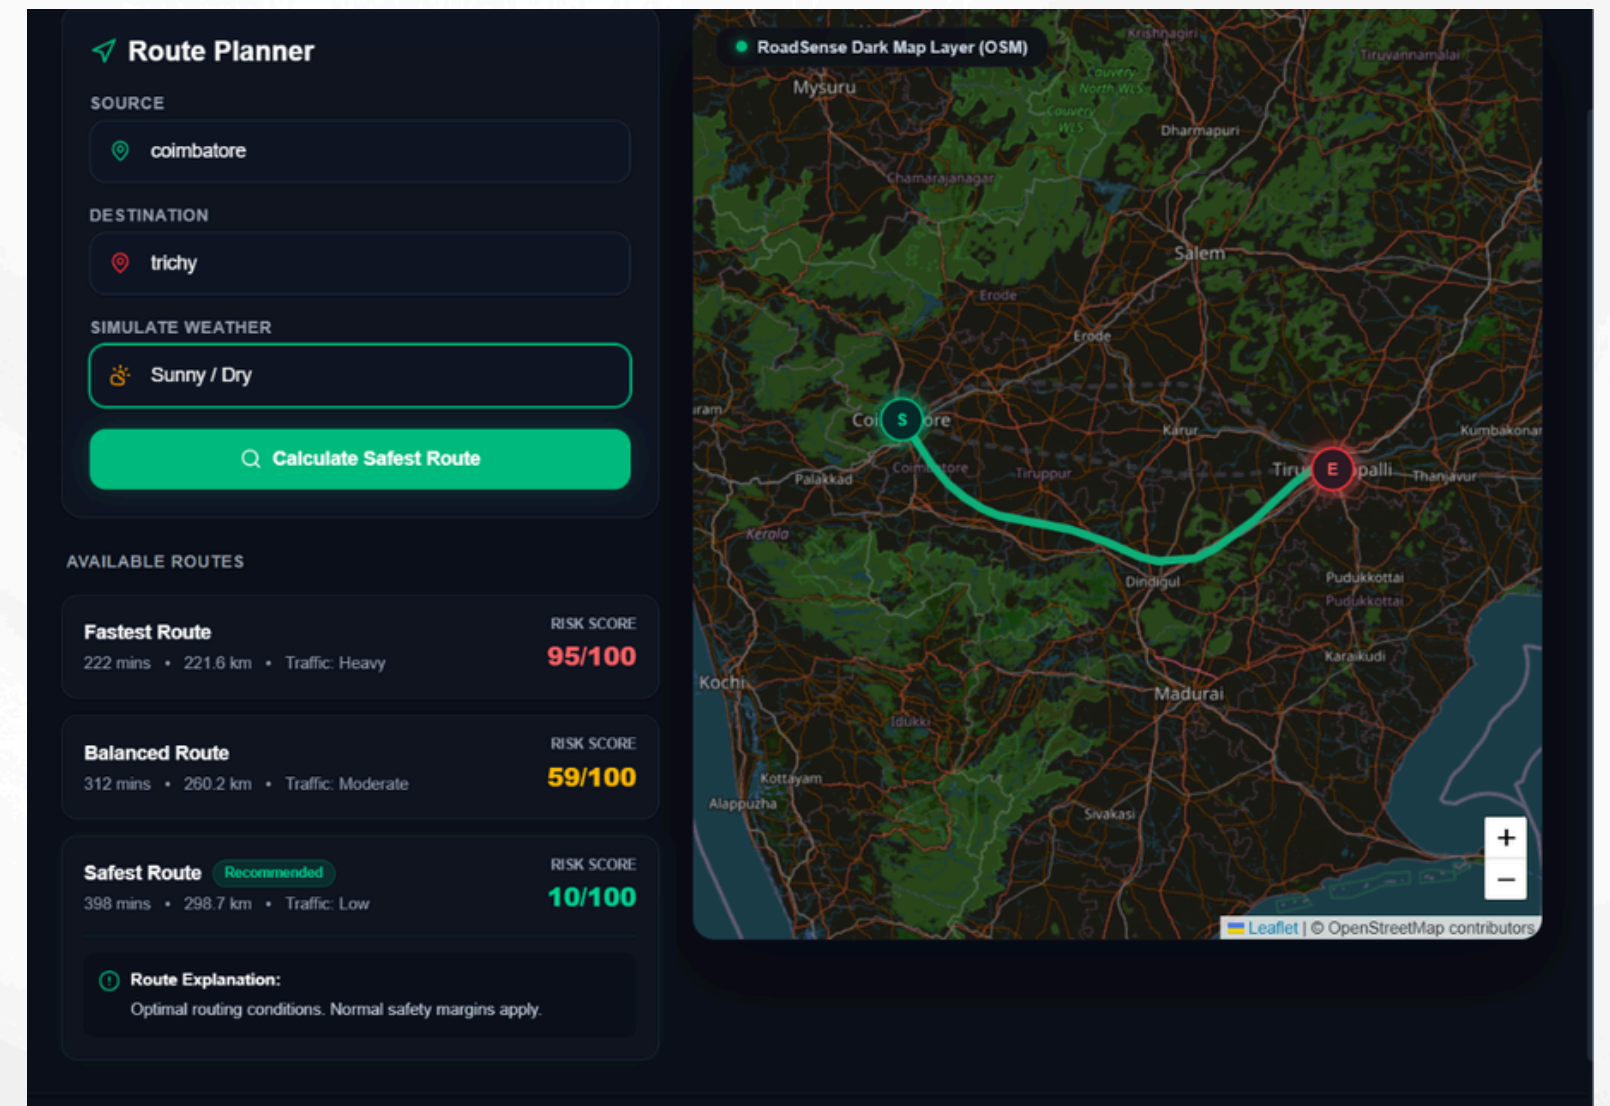

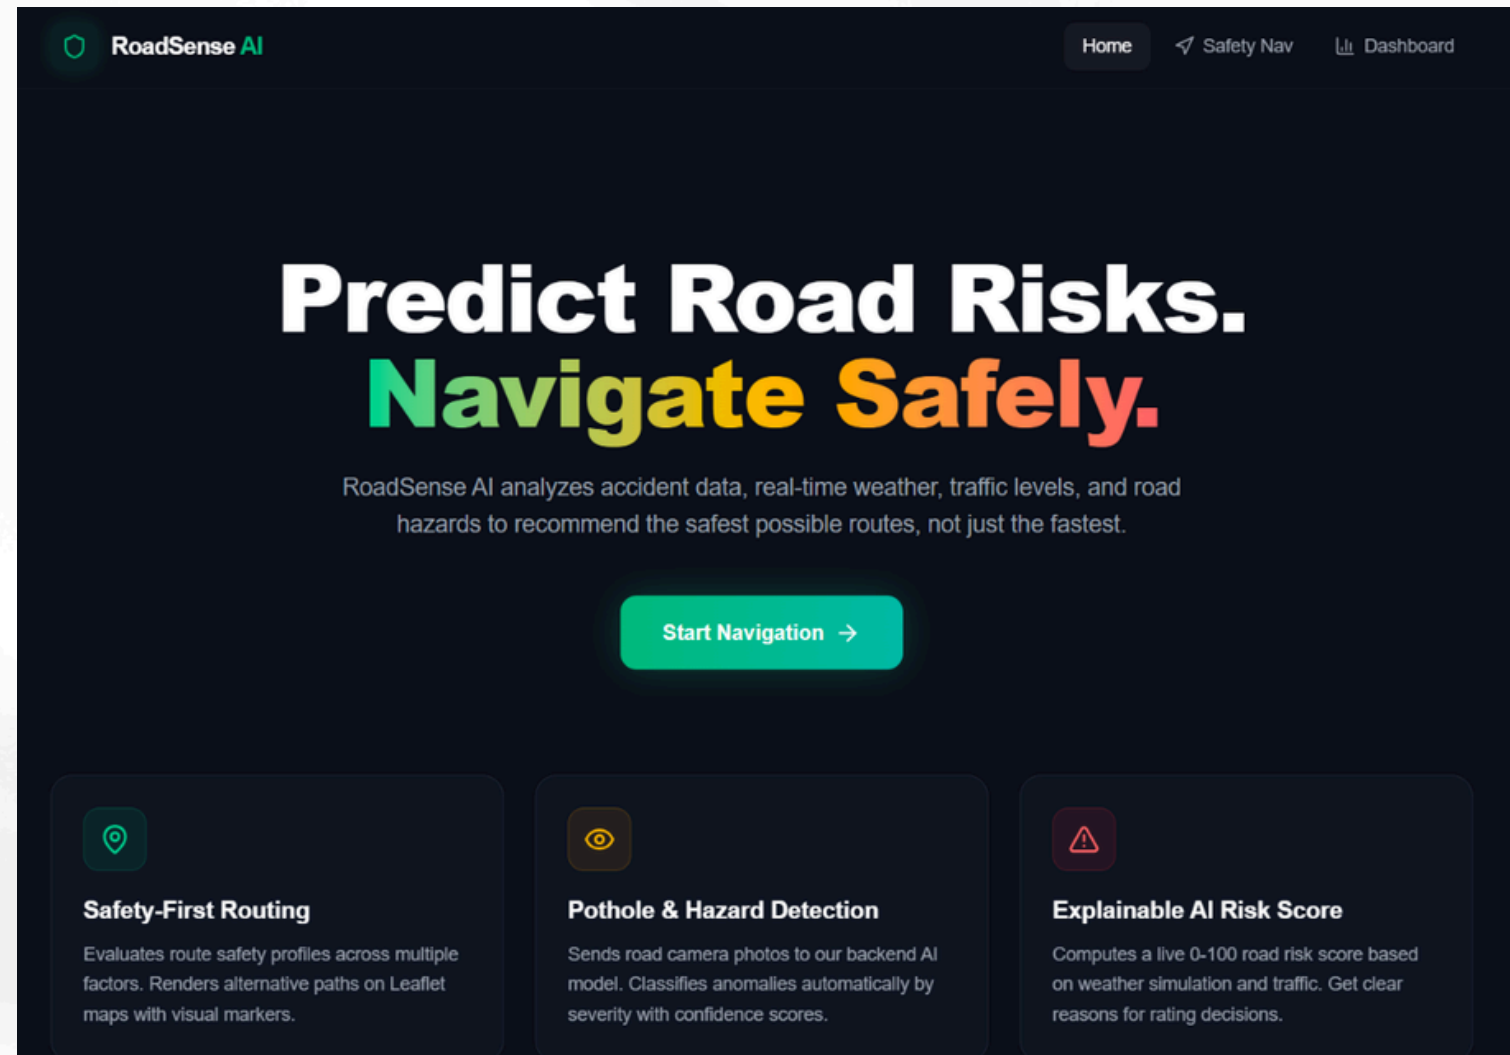

- Accident Hotspot Prediction
- Hazard Detection
- Safe Route Recommendation
- Weather-based Risk Analysis
- Explainable AI
